

WORK EXPERIENCE

POST LLM TRANIEE • Internship

Feb 2026 - May 2026

Ethara AI, Virtual

1. Built and optimized AI/LLM data workflows, annotation pipelines, and structured datasets for model training.
2. Evaluated prompts and AI-generated responses to improve output quality, accuracy, and consistency.
3. Collaborated remotely with the AI team on LLM-based projects involving NLP, data processing, and model improvement.
4. Gained hands-on experience with Generative AI systems, prompt engineering, and large-scale data handling.

EDUCATION

Bachelor of Science (B.Sc), Data Science

2024 - 2028

Indian Institute Of Technology Madras

TRAININGS / CERTIFICATIONS

SQL (Basic) Certification

Jan 2026

Hackerrank, Virtual

Learned foundational SQL including SELECT, WHERE, GROUP BY, and ORDER BY
Retrieved and filtered data for basic analysis and reporting

The Complete Python Bootcamp: From Zero To Hero In Python

May 2025 - Dec 2025

udemy, Virtual

- Learned core Python concepts including data types, control flow, functions, OOP, and file handling
- Built mini-projects focused on automation, data processing, and problem-solving
- Applied Python for basic data analysis and visualization tasks

SQL (Intermediate) Certification

Jan 2026

Hackerrank, Virtual

Wrote complex SQL queries using joins, subqueries, and aggregations
Practiced optimizing queries and analyzing structured datasets
Strengthened relational database design and reporting skills

BS In Data Science – Data Science Foundations

May 2024 - Present

Indian Institute of Technology Madras, Virtual

Coursework in Python, Statistics, Machine Learning, Data Visualization, and Database Management Systems
Built academic and personal projects including web applications and data analysis systems

PORTFOLIO

[HackerRank link ↗](#)

[GitHub link ↗](#)

PROJECTS

[Placement Portal Application | Full-Stack Web Application ↗](#)

Feb 2026 - Apr 2026

Tech Stack: Flask/Python, SQLite, HTML, CSS, Bootstrap, JavaScript

- Developed a multi-user placement portal application to streamline student placement and recruitment workflows.
- Built modules for student registration, job postings, application tracking, and admin/company management.
- Implemented authentication, database integration, and responsive dashboards for efficient data handling and user interaction.
- Designed a clean Bootstrap-based UI and optimized backend workflows for real-time placement management.

[Exploratory Data Analysis on Mixed Dataset ↗](#)

Nov 2025

- Analyzed a dataset with 1000+ records containing numerical and categorical features
- Performed data cleaning, correlation analysis, and statistical summaries
- Visualized insights using Matplotlib and Seaborn
- Presented findings using structured reports and charts for decision-making
- Tools: Python, Pandas, NumPy, Matplotlib

Hospital Management System (Web Application) ↗

Aug 2025 - Sep 2025

Developed a secure hospital management system with login, registration, and role-based dashboards

Built backend APIs using Flask to manage patient records and user authentication

Designed clean and user-friendly UI using HTML, CSS, and Bootstrap

Focused on data validation, security, and system usability

Tech Stack: Flask, Python, SQL, HTML, CSS, Bootstrap

SKILLS

- | | | |
|--------------------|----------------------|-----------------|
| • Python | • SQL | • JavaScript |
| • HTML | • CSS | • Bootstrap |
| • Pandas | • NumPy | • Data Analysis |
| • Machine Learning | • Flask | • Vue.js |
| • Git | • Data Visualization | • MS-Excel |

EXTRA CURRICULAR ACTIVITIES

- Participated in hackathons and coding competitions.
- Volunteered for community service initiatives.
- Authored and published two books focused on personal growth and social awareness, gaining experience in research, writing, editing, and content promotion.
- Team Lead – Settlement Design Challenge: Led a cross-functional team to design a sustainable settlement model using data-driven planning and optimization. Student Member – IIT Madras BS Data Science Community, active in peer learning groups for Python, Statistics, and Machine Learning. Volunteer Teacher: Taught basic literacy and computer skills to underprivileged children. College Events Team Member, helped organize academic and cultural events.

ADDITIONAL DETAILS

- Completed AI & Machine Learning and Data Science workshops at IIT Delhi, and earned the Foundational Level Certificate in Programming & Data Science from IIT Madras. Also completed an online course in AIML for Geodata Analysis.
- Completed various online courses in data science and machine learning.
